

MyShed.io Brochure

MyShed.io

Design. Manage. Deliver. All in One Platform.

Taking Your Shed Business to the Next Level

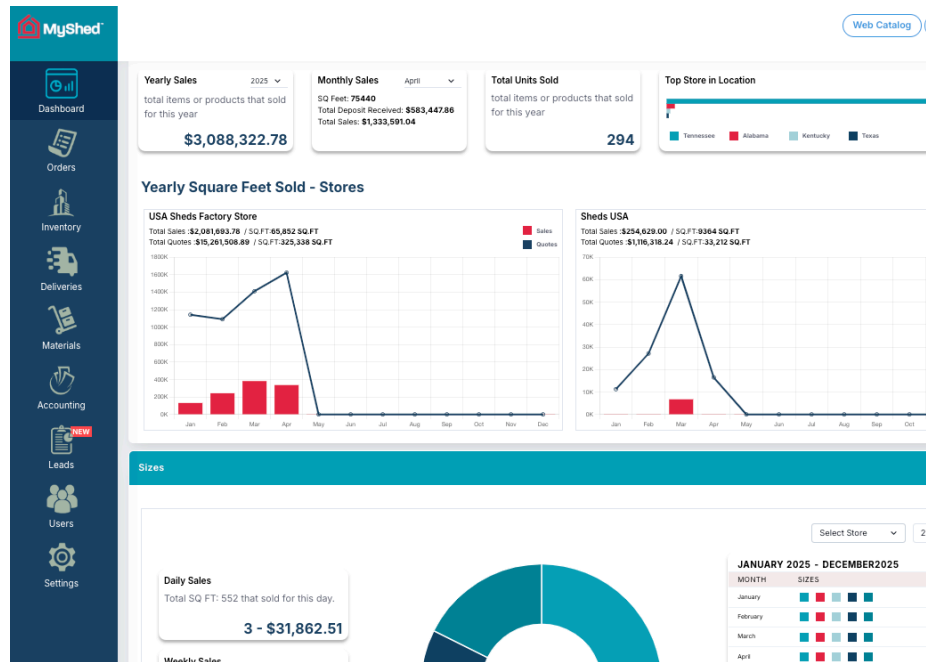

MyShed is the ultimate 3D shed builder and business management platform made specifically for shed manufacturers and dealers. Simplify your workflow—from customer quote to final delivery.

Key Features

Visualize Sheds in Real-Time

Impress your customers and close deals faster with our advanced 3D shed builder. Allow buyers to fully customize sheds on your website in real-time—choosing styles, sizes, colors, windows, doors, and add-ons. Every selection is reflected instantly in high-fidelity 3D.

- Mobile-ready, beautiful on all devices
- Dynamic pricing updates as customers build
- Embeddable into your own website
- Tailor options to your exact specs via the Admin Panel

Powerful Admin Panel to Control Everything

Our admin backend gives you complete control over your business. No need to call support to make changes—update your models, prices, or inventory in real time.

Customize Everything

- Add/remove shed styles
- Adjust prices & materials
- Manage colors, options, etc.
- Push updates live instantly

Built-In Analytics

- Real-time sales dashboard
- Track conversions & orders
- Monitor top sellers
- Export performance reports

Seamless Order Management

Manage the entire order lifecycle in one place—from quote to delivery. Create professional documents, track progress, send updates, manage payments, and assign inventory easily.

- Create and send professional order documents
- Track order status: quote → deposit → manufacturing → delivery
- Automated customer updates and payment reminders
- Manage partial payments and deposits
- Assign inventory units to buyers with one click

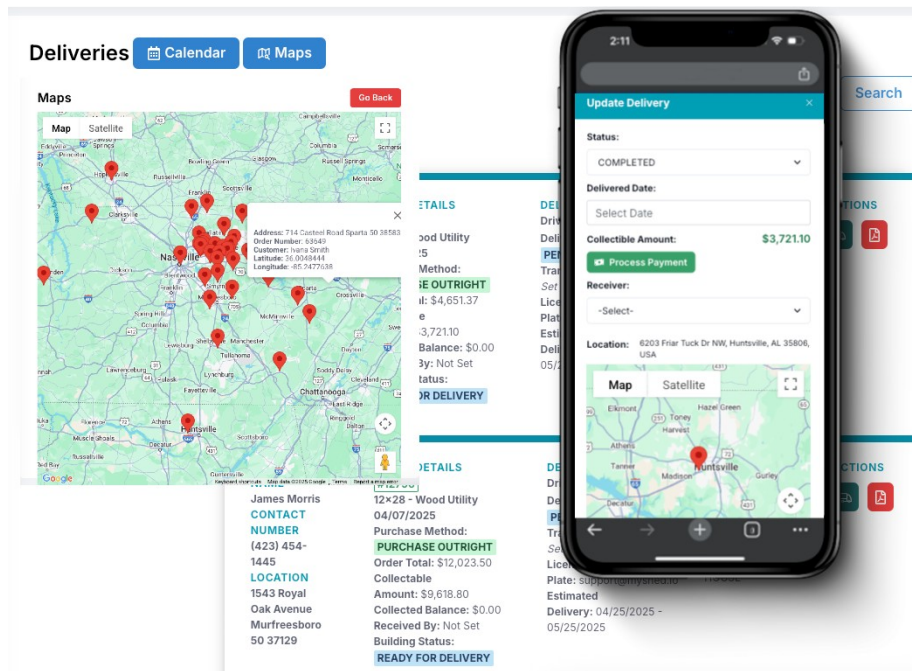

3

Advanced Delivery System

Organize and execute deliveries with precision using our integrated system featuring driver logins, route assignments, proof of delivery capture, and on-site payment acceptance.

- Assign deliveries directly to drivers
- Drivers log in to see assigned routes
- Capture proof of delivery (photos, GPS)
- Mark delivery complete & accept payments
- Dynamically add credit card fees

Additional Highlights:

- **Live Inventory Control:** Keep inventory in sync. Add units, display stock online with live pricing, and convert inventory to orders instantly.
- **Integrated Payments:** Manage transactions, accept various payment methods, set custom fees, and integrate seamlessly with QuickBooks.
- **Lead Capture & CRM:** Integrate with GoHighLevel, track visitors via abandoned cart, see lead interactions, and view full history in the Admin Panel.

Custom Setup, Fast Support, Full Control

MyShed gives you full control of your platform—no developer needed. Customize settings, update pricing, add options instantly. Need help? Our US-based support team responds quickly.

Ready to See It In Action?

Schedule a live demo and get a personal tour of how MyShed will revolutionize your shed business.
